ELIHU M. HARRIS STATE OFFICE BUILDING AUDITORIUM
1515 CLAY STREET, OAKLAND**

Better Transgender Care Now! Get Involved

In the summer of 2006, Lighthouse Community Center, the Transgender Law Center, and East Bay activists expanded our health care access programs to include working on transforming health care services offered at Alameda County based community clinics. We are targeting community clinics instead of private clinics because of their potential for providing services to a broad range of care here in Alameda County. This would mean that the services would be available to people without insurance, people on Medi-Cal, and probably on a sliding scale basis to people whose insurance excludes transition related care.

This Town Hall meeting will include:

- Public health officials**
- Elected officials**
- Community activists**
- And your opportunity to speak about your health care issues**
